

**O. J. Connell**  
**1885 - 1947**

Mr. Connell was an independent operator and producer of oil. He was active in the Mid-Continent field. Connell for many years had offices in Wichita and had been engaged in the oil business throughout the Mid-Continent field – from Tampico, Mexico, through Texas, Oklahoma and Kansas into sections of Wyoming. During his early days as an oil man, he did much drilling, operating throughout large sections of what then were new fields.
